

## **Interview Skills Online Workshop**

This online workshop will help you prepare for your university interview by identifying the key to successful interviews. It will cover strategies for self-introduction and responding to questions, language skills, patterns to present ideas, tone, choice of expressions and common questions or topics in interviews.

Upon completing the course, students should be able to:

- develop a good understanding of your strength and selling point;
- create engaging content; and
- tackle the interview with appropriate body tone and body language.
